

ICT Environmental, Sustainability and Supply Chain Counsel Roundtable

Thursday, October 4, 2018

Garden Court Hotel, 520 Cowper Street, Palo Alto, CA | Terrace Room

FACILITATOR BIOS

Ellen Jackowski

Global Head of Sustainability Strategy & Innovation, HP Inc.

Ellen drives HP's Sustainable Impact strategy and corresponding innovation programs that focus on the planet, people and the communities that HP serves. Ellen also oversees efforts to align and integrate these programs with HP's Personal Systems, Imaging and Printing, and 3D Printing business groups to ensure that sustainability is at the core of HP's business results. Previously, Ellen was a management consultant focusing on strategy projects for Fortune 500 companies. She has a Bachelor of Science degree from Northwestern University and is a faculty member of The Prince of Wales's Business & Sustainability Programme at the University of Cambridge.

Rick Goss

SVP of Environment and Sustainability, Information Technology Industry Council

Rick directs the development and implementation of policy and advocacy strategies related to ICT product design, green procurement and stewardship; "Smart" and renewable energy; and supply chain priorities including conflict minerals. He works with federal and international officials, the global ICT sector and civil society to promote science-based global requirements for high tech products and to advance the central role of ICT in driving energy efficiency and sustainability throughout the global economy.

Prior to joining ITI, Rick worked for three years at the Electronic Industries Alliance (EIA), where he served as EIA's Vice President of Environmental Affairs. He also worked as Senior Project Manager for a D.C.-based environmental consulting firm that specialized in risk communications issues related to major environmental remediation and redevelopment projects. Prior to relocating to the D.C. area, Rick spent nine years in Albany as the Legislative Director for New York State Assemblyman Sam Colman.

Paul Hagen

Principal, Beveridge & Diamond, P.C.

Paul practices in the areas of U.S. and international environmental law. He advises a diverse group of multinational corporations and trade associations on market access, global supply chain, and product stewardship matters in the U.S. and in key markets worldwide. Paul also counsels clients on the negotiation and implementation of regional and global environmental agreements, with a particular emphasis on treaties and related legislation impacting the chemicals and electronics sectors. He provides strategic advice on circular economy initiatives and has helped clients launch national and global product take-back and recycling programs.

Paul serves on the board of the Conservation Fund and on Strategic Advisory Council of NatureServe. He is a former board member of the Environmental Law Institute (board chair), the American Bird Conservancy, and World Environment Center. In addition, he has taught as an adjunct professor at the Washington College of Law at American University (Washington, D.C., Geneva).

Lauren Hopkins

Principal, Beveridge & Diamond, P.C.

Lauren's practice focuses primarily on global product stewardship, supply chain due diligence, and environmental advertising and marketing. She advises on the interpretation and implementation of the SEC's conflict minerals rule, preparation of conflict minerals disclosures, supplier outreach and engagement, and coordination with industry groups on conflict minerals requirements.

Lauren also advises on voluntary environmental reporting, paper sourcing and Lacey Act compliance, and human rights and labor issues in the supply chain. Her practice also extends to product-related environmental requirements such as material restrictions in the U.S. and Europe, worldwide product safety regulations, and product take-back and recycling. She is well-versed in California state-specific product issues, particularly those related to Proposition 65 and California Safer Consumer Products regulations.

Lauren has significant experience advising on federal, state and international regulation of environmental marketing and advertising claims, including those related to energy efficiency, design for recycling, reduced use of substances of concern, and product packaging and logistics.

Russ LaMotte

Managing Principal, Beveridge & Diamond, P.C.

Russ represents clients in matters relating to U.S. and international environmental regulatory regimes, and he advises on multi-jurisdictional product compliance regulatory matters, as well as human rights and sustainability. Examples of his recent work include advising ICT and electronics consumer products and manufacturing companies on implementation of the SEC conflict minerals rule and related supply chain management issues, and advising ICT, electronics, chemicals, pesticides, and other companies on compliance with chemicals-related market access regulations, including REACH, RoHS, and other national-level chemical and article import notification schemes.

Prior to joining the Firm, Russ served for over ten years as an international lawyer at the U.S. Department of State.
