

Join Beveridge & Diamond for its 2019 Occupational Safety and Health Webinar Series to take a look back at 2018, explore what employers might expect from OSHA in 2019, and learn how you can ensure compliance and reduce enforcement risk.

We will host a series of five complimentary presentations examining the “nuts & bolts” of OSHA compliance, OSHA rulemaking developments, and OSHA enforcement trends. Each session will have a specific focus. The series as a whole will help companies anticipate, understand, and manage the breadth of OSHA compliance issues.

February 25, 2019 (12:00 p.m. ET) – OSHA: A Look Back at 2018 and What to Expect in 2019

This webinar will take a look back at OSHA developments from 2018 and look forward to what employers might expect in 2019. Participants can expect to learn about the status of OSHA’s leadership, recent rulemaking activity, including efforts to scale back rules that were issued at the close of the Obama administration, rulemaking activity that is anticipated in 2019, OSHA enforcement and civil penalty trends, and recent OSHA guidance and policy developments.

Speakers: [Jayni Lanham](#) & [Sarah Kettenmann](#)

May 2, 2019 (12:00 p.m. ET) – The Nuts & Bolts of OSHA’s Electrical Standards

Electrical hazards can quickly result in employee fatalities. This webinar will provide an overview of the general industry and construction electrical standards, review briefly the electrical utility standard at 29 C.F.R. § 1910.269, discuss OSHA guidance and enforcement pertaining to electrical standards, and provide insight into ways that employers can ensure compliance and reduce enforcement risk.

Speakers: [Mark Duvall](#) & [Heidi Knight](#)

June 19, 2019 (12:00 p.m. ET) – The Nuts & Bolts of OSHA Records Retention and Access Requirements

This webinar will provide an overview of employee exposure and medical records retention and access requirements under relevant OSHA standards. Participants can expect to learn about the types of records employers must maintain, how long records must be maintained, and to whom they must be provided. In particular, we will take an in-depth look at OSHA medical records access orders, address relevant privacy issues, and provide practical tips on ensuring compliance.

Speakers: [Jayni Lanham](#) & [Aron Schnur](#)

September 18, 2019 (12:00 p.m. ET) – The Nuts & Bolts of EPA’s Risk Management Program Standards

A sister set of requirements to OSHA’s process safety management standard, the RMP standards and the Clean Air Act general duty clause give EPA authority that goes beyond that of OSHA. A late Obama era expansion of the RMP standards has survived challenges and went into effect in 2019. This webinar will provide an overview of RMP requirements and their differences from the OSHA PSM standard, then focus on what’s new and what to expect with RMP.

Speakers: [Mark Duvall](#) and [Mike Vitris](#)

November 14, 2019 (12:00 p.m. ET) – The Nuts & Bolts of OSHA’s Respiratory Protection Requirements

An estimated 5 million workers are required to wear respirators in 1.3 million workplaces throughout the United States. OSHA’s respiratory protection standard requires employers to establish and maintain an effective respiratory protection program when employees must wear respirators to protect against workplace hazards. Participants in this webinar can expect to learn about respiratory protection program administration, employee training, medical evaluation and fit testing, respirator use, and other key aspects of OSHA’s respiratory standard, as well as OSHA guidance and enforcement pertaining to respiratory protection.

Speakers: [Heidi Knight](#) and [Meghan Morgan](#)
