ORDER GRANTING PETITION FOR REVIEW No. 16-2-03923-34c - 1

1 Washington Business et al. ("AWB") appeared by and through counsel Jason T. Morgan; 2 Petitioners Avista et al. (the "LDC Petitioners") appeared by and through counsel Megan H. 3 Berge. AWB and the LDC Petitioners are referred to, collectively, as "Petitioners." Respondent 4 Washington State Department of Ecology ("Ecology") appeared by and through counsel Laura J. 5 Watson, Katharine Shirey, and Emily Nelson Assistant Attorneys General. Respondent-6 Intervenors Washington Environmental Council et al. appeared by and through counsel Marisa 7 Ordonia and Jan Hasselman of Earthjustice. The Court considered each party's briefing on the 8 9 merits, authorities, and relevant law. After hearing argument on December 15, 2017, the Court 10

12

13

14

25

26

BACKGROUND

Procedure

made an oral ruling, supported by the following:

1. On September 27, 2016, AWB filed a Petition for Review with this Court and 15 moved to file an amended petition on December 5, 2016. The Court granted the motion on June 16 5, 2017, and AWB filed the Amended Petition on June 15, 2017. In its petition, AWB 17 challenged both the "new regulations promulgated by the Washington Department of Ecology at 18 WAC Ch. 173-442, generally referred to as the 'Clean Air Rule'- and associated amendments to 19 20 WAC ch. 173-441." AWB 1st Amended Pet. at 1-2. On September 30, 2016, LDC Petitioners 21 filed a separate Petition for Review with this Court and moved to file an amended petition on 22 December 5, 2016. The LDC Petitioners challenged the Clean Air Rule, Chapter 173-442 WAC. 23 LDC 1st Amended Pet. at 2, 20. The Court granted the motion to on June 5, 2017, and the LDC 24 Petitioners filed the Amended Petition on June 15, 2017. This Court consolidated the cases of LDCs Petitioners and AWB on October 21, 2016.

1	2.	On January 19, 2017, Petitioners filed their Opening Briefs on the Merits.			
2	3.	On January 31, 2017, this Court granted three environmental advocacy			
3	organizations' Motion to Intervene.				
5	4.	On February 17, 2017, Ecology filed its Response Brief. Respondent-Intervenors			
6	filed their Response Brief on February 27, 2017.				
7 8	5.	On March 16, 2017, Petitioners filed their Reply Briefs.			
9	6.	On December 15, 2017, after reviewing each party's briefing on the merits, the			
10	administrative record, and relevant law, the Court heard oral argument from the Petitioners,				
11	Ecology, and the Washington Environmental Council.				
12					
13		CONCLUSIONS OF LAW			
14	1.	The first issue presented by Petitioners is whether the Department of Ecology has			
15	the statutory authority to adopt the Clean Air Rule.				
16 17	2.	RCW 34.05.570(2)(c) provides that the Superior Court may reverse a state			
18	agency's rule if that rule exceeds the statutory authority of the agency.				
19	3.	The Court begins its analysis on this particular issue by recognizing that "an			
20	administrative agency is limited to the powers and authority granted to it by the legislature."				
21	Fahn v. Cowlitz County, 93 Wn.2d 368, 374 (1980).				
22					
23	4.	Further, "[i]f an enabling statute does not authorize a particular regulation, [the			
24	court] must declare the regulation invalid." Littleton vs. Whatcom County, 121 Wn.App. 108,				
25	117 (2004).				
26					
	ORDER GRANTING PETITION FOR REVIEW				

- 3

No. 16-2-03923-34c

1	5. In RCW 70.94.331(2)(b), Ecology is authorized to "adopt emissions standards			
2	which shall constitute minimum emission standards throughout the state."			
3				
4	6. In RCW 70.94.030(12), the terms "emission standard" and "emission limitation"			
5	are defined to mean, in part, "a requirement established under the Federal Clean Air Act or the			
6	chapter that limits the quantity, rate, or concentration of emissions of air contaminants on a			
7	continuous basis"			
8				
9	7. This Court finds that RCW 70.94.331(2) and RCW 70.94.030(12) allow Ecology			
10	to regulate emission standards on "direct emitters," or sources that directly emit air			
11	contaminants.			
12	8. In contrast, some entities regulated by the Clean Air Rule (natural gas distributors			
13	and petroleum product producers and importers) do not directly emit air contaminants. Rather,			
14				
15	these "indirect emitters," are entities that do not introduce contaminants into the air.			
16	9. This Court finds that these "indirect emitters" cannot reduce emissions directly			
17	and must buy emission reduction units ("ERUs") to comply with the Clean Air Rule. AR 5049,			
18	5083-84. For example, LDC Petitioners, as natural gas distributors, are legally required to			
19	supply service sufficiently and affordably to meet customer demand. RCW 80.28.074. The only			
20				
21	way for "indirect emitters" to comply with the regulations at issue is to buy ERUs. The			
22	definition of "emission standard" is the key issue with respect to whether Ecology has the			
23	authority to implement the Clean Air Rule as it applies to "indirect emitters."			
24				

25

26

1	10. This Court finds that Ecology's authority under RCW 70.94.331(2) is limited to		
2	entities who directly introduce contaminants into air, not entities who sell commodities, the		
3	"indirect emitters."		
4			
5	11. This Court also finds that the regulation of "indirect emitters," is fundamental to		
6	the entire Clean Air Rule. AR 5083-84 ("[R]oughly 75-80 percent of the emission reductions		
7	required in the program need to be acquired by entities that lack ability to reduce emissions		
8	directly, instead relying on downstream users of their products to reduce those emissions.").		
9			
10	12. This Court holds that, pursuant to RCW 34.05.570(2)(c), the Clean Air Rule		
11	exceeds the statutory authority of the agency conferred by law. The Court therefore finds that		
12	the Clean Air Rule is invalid.		
13	13. Because of this Court's ruling with respect to lack of legislative approval, the		
14	Court need not and does not address whether: the rules violate a statutory mandate regarding		
15			
16	collection of transportation emissions data; whether the ERU program is an unconstitutional tax;		
17	whether Ecology failed to comply with the State Environmental Policy Act by dispensing with		
18	an Environmental Impact Statement; or whether Ecology acted arbitrarily and capriciously when		
19	it conducted its cost-benefit analysis, determined that the Clean Air Rule was the least-		
20	burdensome alternative, or in regulating natural gas emissions.		
21			
22			
23			
24			
25			
26			

1	OR	DER			
2	Based on the foregoing, it is hereby ORDERED that the Clean Air Rule, as enacted at WAC Chapter 173-442 and 2016 amendments to made to WAC chapter 173-441, published at				
3					
5	Washington State Register 16-19-047 (Sept. 15, 2016), is invalid.				
6	DATED this ZX day of April 2018.
